

Cambridge Water

Wholesale Charges Scheme

2017-18

Cambridge Water Wholesale Charges Scheme

As a result of the changes made in the 2014 Water Act, non-household customers will be able to switch their supplier from April 2017 and incumbent water companies have a requirement to publish their wholesale charges.

Wholesale charges are the charges that new retailers will have to pay wholesalers for the provision of wholesale water services and so the tariffs set out in this document exclude the retail costs of providing water to the end customer.

This charges scheme sets out our wholesale charges to provide water to a retailer. All charges are effective from 1 April 2017 to 31 March 2018, unless otherwise stated.

Retailers should read these charges in conjunction with the terms set out in their wholesale contract for wholesale services.

Alongside this document, the Company has published a list of non-primary charges that would be payable by a water supply or sewerage licensee. This is available on our website at the link below:
