Cambridge Water

# How many litres?

Work out how much water you use every day from the totals below.
On average, in the UK we each use 150 litres per day!

3 litres

Washing your hands

12 litres

Brushing your teeth (2 mins with tap running)

9 litres

Flushing the toilet (without Hippo bag)

85 litres

Washing machine load

80 litres

Bath

70 litres

Power shower (4 mins)

35 litres

Normal shower (4 mins)

I have used _____ **litres**
